- Passionate and hard worker, whether it is manual labor or skilled operation of a tool/machine.
- Quick learner and eager to learn new skills
- Flexible with new challenges/information, ability to work in a different environment every day.
- A vast scope of construction experience over the past year, has worked with electrical, framing, plumbing, siding, flooring, drywall, and other trade-type work.
- Through experience I have obtained a very strong work-ethic, always staying busy throughout the day and working hard.

Professional Experience

Manual Laborer

12/20-present

Ryner Homes

Snohomish, WA

Has spent the last year learning how to remodel and build residential houses. With this comes experience of the trades that are required to build a house. Has learned to understand the whole scope of a project, and the importance of small tasks pertaining to it. Have learned to read construction plans and understand the different layouts, whether it be for plumbing, framing, HVAC, or electrical. Operated large machinery such as a Backhoe, Excavator, and Forklift. Has experience with large power tools such as a Jackhammer, Concrete Saw, and machinery such as a Compactor.

Side Jobs

I feel these are important to bring up. I have worked for residents specifically as a handyman, whether it be cleaning gutters or landscaping or removing debris. I have also worked with an Arborist Company, working with them on days where they needed a laborer.

Education

High School Diploma - Monroe High School 2020
